TEST YOUR METTLE

Time to test your mettle in collecting metal! Every available ounce of unused metal in the country, from gate hinges to superannuated hot water tanks, is essential. If America's soldiers, sailors and airmen are to get weapons and munitions in the quantity that will make victory possible, you will have to help. Those pieces of scrap metal which may at this moment be lying in shameful disuse in your basement, attic, garage, or out in the back lot, can, with a minimum of effort on your part, be headed for the steel mills, subsequently for tank, aircraft, ordnance plants, and finally as a fighting machine or weapon to hammer telling blows against the enemy. If you've got the scrap, get it in the fight.

THE MOTORIST'S "V"

Under a metal-saving order of the WPB, California motorists will be issued four-inch squares of white metal, each emplazoned with a flaming red "V", for their 1943 license plates. The metal tabs will be made to fit over old plates, and thus a considerable saving in steel will be effected. This plan should be excellent for morale, as well as for conservation. Several million jaunty and defiant red Victory "V's," flaunted on cars driven by motorists who are restricted on tires, rationed on gas and slowed down to a snail's pace, should hearten those who might tend to think of their personal wartime burdens unduly severe. Back in peace days, the California motorist took it on the chin with a very heavy set of taxes on virtually everything connected with owning and operating a car—and he was the first to be hit hard by restrictions of the war, when rubber imports vanished. But he's still on the highway, driving slow, nursing his tires, and confident that all highways lead to final victory. That will be the California motorist's symbol—his "V" for '43.

Taking one with another kings, who achieve their pomp by accident of birth, aren't taken very seriously in democratic America. But Christian X of Denmark is a man to rate the admiration of the world for courage and patriotism. He rejected the Nazi demand for anti-Jewish legislation in Denmark with the noble statement: "There is no Jewish question in this country; they are only my people." And then, learning that a special celebration was to be held in a synagogue, he attended attired in his full dress uniform. He is a king—and a man among men.

Much interest is being manifested in the football game this Saturday between the Spartans of San Jose State college and the College of Pacific teams. Starting time has been set for 2 o'clock and price of admission has been raised over that of last Saturday.

HOUSEWIVES URGED TO SAVE CANS

Campbell housewives are urged to save their tin cans and take them to their grocers where bins are provided for their collection.

But, the cans must be washed, labels removed, top and bottom cut off placed inside and the can flattened. This is necessary because freight cars must carry a required weight.

Authorities have issued the following notice:

Several cities engaged in tin can salvage are finding it difficult to meet minimum freight rate requirements because housewives as a rule are not stepping hard enough on the cans. Instructions for preparing tin cans for detinners should stress stepping firmly on the cans to flatten them, but not hammering them.

Some of the stores have also provided receptacles for rubber items.

This salvage should be in constant collection as rubber items wear out or become useless.

Mrs. B. O. Curry Is Hostess to Pundita Circle

Pundita Circle met with Mrs. B. O. Curry on Wednesday, Oct. 14.

After a social hour and dessert a business meeting was conducted by the club president, Mrs. Wilbur Mitchell.

Because of other duties Mrs. Kenneth Robison resigned as the club secretary. A nominating committee was elected to select a new secretary.

The program for the afternoon was a most enjoyable one. Mrs. Caroline Pitkin Brock of San Jose was the guest speaker. Her topic being "Period Gardens," especially stressed Italian gardens.

Mrs. R. Y. Maxon and Mrs. G. W. Burrow assisted Mrs. Curry in entertaining.

On October 28 the club is to meet with Mrs. E. K. Clendening.

CAMPBELL BIRTHS

To Mr. and Mrs. Oliver William Buehner, a girl, Carolyn Ruth, Oct. 7 at San Jose hospital.

To Mr. and Mrs. William Gibson, a boy, A. W., Oct. 2 at O'Connor sanitarium.

Mr. and Mrs. William J. (Jack) Burns are parents of a son, Richard Jon, born Oct. 12, at O'Connor sanitarium.

Mr. and Mrs. Kenneth Dwelley are receiving congratulations on the birth of an eight and one-half pound boy Tuesday morning at O'Connor sanitarium. The new citizen has been named Robert Bruce.

Van Dyke Will Be Speaker at P.-T. A. Meeting

The first regular meeting of the Campbell High School P.-T. A. will be held in the little theater of the school on Wednesday afternoon, Oct. 21 at 2:30 o'clock.

Mrs. Carl Field extends a cordial invitation to friends, mothers and members to attend.

Mrs. Clarence Fagalde, chairman of the day, will introduce the speaker, Willard H. Van Dyke, principal of the Campbell High school. He will explain the present curricula and the new classes that have been added as vital to the defense program and will also present the faculty to the unit.

Many new teachers have been added to make up the loss of men called to the country's colors.

The executive board will be hostesses and offer any interested person a chance to assist in Red Cross work during the meeting. Please bring a bone crochet hook or heavy needle for yarn.

Statesmen Visit L. G. Dam Site

State Assemblyman Byrl Salsman of Palo Alto and Mayor Stanley Mills of Los Gatos accompanied the state senate's water recovery committee Tuesday on an inspection tour of the proposed Los Gatos reservoir site, in the Los Gatos canyon, planned to conserve the creek water and prevent erosion.

The committee heard both pro and con views regarding the plan.

Orchardists of this side of the valley have often expressed their opinions that it was not getting its share of benefit in proportion to taxes paid in the valley conservation district.

Mr. and Mrs. R. H. Hyde returned Monday evening from a five day visit with their son, Homer and family in North Hollywood.

Local Projects Discussed at Kiwanis Meeting

Campbell Kiwanians discussed a number of local projects at their meeting Tuesday over which Herbert Shadle presided as chairman.

One of these subjects was the long considered dam above Los Gatos to provide increased water conservation for the west side of the Santa Clara valley water conservation district.

Next Tuesday Noel A. Lyons, manager for Irwin A. Moon's exhibition "Sermons from Science," which will be shown next week at the civic auditorium in San Jose will speak, his topic "Army Camp Life."

C. P. Klassen, a member of the Christian Business Men, under whose sponsorship the exhibit is being shown, will be chairman.

The Footlighters Have Pot Luck Dinner Tuesday

The Footlighters met in regular session Tuesday evening starting at 6:30 with a pot luck dinner.

The business meeting was presided over by President LBen Howard at which time officers for the year were elected. They are Budd Levenberg, president; Jack Murdock, vice president; Florence Smith, secretary; Ellen Lanphear, treasurer; and Paul Becker and Alma Leverton, directors.

The annual story is cropping up in some localities about community and war chest solicitors being paid, and where they meet for dinner, that those meals are paid for out of chest funds. Surely everyone should know by now that this is all voluntary service, even to use of precious tires in scattered areas.

Rev. J. H. Bennett conducted funeral rites this morning for Lisle C. Weeks of Los Gatos.

Country Woman's Club to Meet Monday, Oct. 19

The Country Woman's club will hold its next meeting at the club rooms on Monday, Oct. 19 at 2:30 o'clock.

C. J. Dirksen, dean of the school of business administration at the University of Santa Clara will speak on the natural resources of Latin America.

Mrs. Earl Buck will sing several numbers and little Miss Marilyn De Vita will dance.

The committee in charge of the program is Mrs. Ray Wood, chairman, Mrs. L. J. Carboni, Mrs. Georgene Kidward, Mrs. Stephen Casaleggio, Mrs. T. A. Cutting, and Miss Lillian Cassidy.

Mrs. F. A. Jacobson is chairman of the Red Cross work for the club. Assisting her are Mrs. Joseph Agostinho, Mrs. I. R. Abbott, Mrs. Milton Robertson and Mrs. W. F. Grattan. Members will do their Red Cross work during the meetings. Everyone is asked to bring a steel crochet hook for working with yarn, a darning needle, 3 or 4 inch wool squares, scraps of yearn, scissors and a thimble.

Community and War Chest Drive Well Under Way

Reports from the solicitors for the Campbell Community and War Chest are beginning to come in, but very incomplete as yet.

The greatest interest so far as known is a contest being staged between the day and night shifts at the Drew cannery, where intense rivalry is in evidence. At the last report the day shift was leading.

Mrs. Ralph Hyde, campaign manager got things well under way last Wednesday in the one day she had after her election, before going on a trip, previously planned.

High School Publishes Paper

The first issue of the New Sparks, printed newspaper of Campbell High school, was distributed Tuesday at the school to all students and faculty members.

New Sparks, published every other Tuesday under the direction of the journalism class, is edited by Howard Payne, assisted by Bobbie Jo Field, Don Smith and Roy Van Gorkom. Staff photographer is Kenneth Leverton and the advertising manager is Connie Dondero with Beverly Baird as advertising saleslady. Reporters are Mable Allen, Dora Bernardasci, Linda Cuciz, Donna Gray, Gloria Muller, Burt Reynolds, Betty Richards, Helen Rue, Joanne Smith, Carol Weeks, Paul Mulcahy, Genevieve, Gonzales, Mary Rajkovich, and Alice Hedegard. Miss Dorothy Thompson is faculty adviser.

LOCAL RED CROSS UNIT NEEDS HELP

The local Red Cross sewing unit is in need of material for cases for fracture pillows. For this white material is used—old sheets, sugar sacks, flour sacks, and other white goods.

If possible the flour sacks and small sugar sacks should be bleached, but will be accepted otherwise.

Fracture pillows are small pillows filled with "snips" of cotton and woollen material and are placed under fractures to relieve pressure and under knees in wheel chairs and for other uses.

A great number are needed as they cannot be used repeatedly.

Mrs. Ray Wood in charge of the sewing unit requests that the material be brought to the I. O. O. F. dining room where the unit meets on Wednesdays, from 1 to 4 p. m.

She states also that more sewers and knitters are needed as the needs multiply as our forces increase their activities abroad and our armed forces grow in numbers.

Martin Walsh Heads Local Seal Sale

Martin S. Walsh has accepted the chairmanship of the 1942 Christmas Seal Sale for Campbell. Mr. Walsh announced that the Seal Sale will open officially November 23 and extend through Christmas day.

Almost 7,000,000 Christmas Seals will find their way into the homes of residents throughout Santa Clara county.

Funds derived from the sale of Christmas Seals is the sole support of the Santa Clara County Tuberculosis association. "The association's program this year," said Mr. Walsh, "is being planned to meet wartime needs and since tuberculosis and war are inseparable, it is more urgent than ever before that the association cooperate in a county-wide program of tuberculosis prevention.

Lieut. George William Simonds, brother of Charles G. Simonds of the Campbell high school faculty, has been visiting his mother, Mrs. P. G. Gail of San Jose and other relatives. He is officer instructor at Camp Walters, Texas.

Mr. and Mrs. Edward Kress of Willow Glen have announced the engagement of their daughter, Shirley, to Norval Guttormsen of Campbell. Both young people have attended San Jose State college and have been interested in dramatics. Miss Kress has studied for two years with Miss Dorothea Johnson of Saratoga. Norval is awaiting a call to the merchant marine in which he recently enlisted.

TO MR. SPEEDER

Just a minute, Mr. Speeder! Want to give away your car? Uncle Sam means business, means to conserve rubber, means, in fact, to take away gas ration cards from those who break the new 35-mile an hour speed limit.

Pacific coast price administration and transportation officials are now working out the mechanics of the plan whereby speeders' gas ration books will be returned for safe keeping to Uncle Sam.

Stringent? Yes, but little wonder. America's—and the world's—biggest stock of rubber today is on the wheels of the 33 million motor vehicles coursing over the nation's 3 million miles of roadways.

It's the medium that enables countless hundreds of thousands of war workers to reach their jobs every day.

Don't forget, ours is the most intensively motorized nation on earth. Our entire economy, industry, agriculture and civilian life, is geared to motor transportation. The government wants to keep the wheels of essential motor transportation rolling. Do your bit. Keep under 35 m. p. h.—and keep your gas card.

★ ★ ★ ★

BRAKES ON ROLLING STONES

With the virtual freezing of 220,000 bay region shipyard workers to their jobs, through voluntary agreement between shipbuilders and unions, a big stumbling block is uprooted from the path of increased war production.

Both the hoarding and "stealing" of skilled workers along with the disruptive migration of labor to other jobs, has laid a crippling hand on this and other war industries. Already the government has had to block the further exodus of workers from the lumber and non-ferrous mining industries of the Pacific Northwest where a grave decline in manpower has sent production of lumber, copper and other metals far below needed quotas.

This flux of footloose workers, drifting in and out of war industries on a grand Cook's tour in quest of the greenest pastures, cannot longer be safely tolerated. A restraining hand may even have to be laid on civilians lest their unchecked march into war jobs endanger essential civilian enterprises and services, already hard hit by a shrinking labor force.

Civilians considering such a step should consider the words of Lientenant-Commander Winston, assistant executive of selective service headquarters, who points out, "A man moving voluntarily from a non-essential industry to an essential industry in which he has had no previous experience does not improve his draft status. On the contrary, such action to prevent immediate induction might cause him to be called earlier."

In sum, it appears that employed civilian men ought to remain at their regular jobs. In deserting their normal occupation they disrupt essential civilian enterprises and bring so little experience to their war job, that draft boards cannot seriously consider them deserving of deferment.

Rolling stones gather no moss, but they do create friction for the wheels of war production. Of necessity, their days are numbered.

★ ★ ★ ★

IT'S COMING TRUE

With meat rationing scheduled in two or three months, due to a 21 per cent reduction in deliveries for civilian consumption during the last quarter of the year, America will have to tighten its belt another notch. War production chiefs have warned that the nation would have to get down to bone and muscle. Now the prediction's coming true.

Campbell High News Notes

Taken from School Paper

Four Teachers Join Faculty

Four new teachers have joined the Campbell High school lfaculty this year, replacing those who left to join the armed forces and for other reasons.

Miss Dorothy Dean has taken over Sidney L. Ancker's classes in communications and remedial reading. Before coming here she taught at Dunsmuir and at her home town, Petaluma.

Miss Elna Petersen, who was formerly a teacher at Delano High school, has taken charge of the cooking and home management classes. She replaces Miss Steadman, who is now Mrs. James Wilson, housewife. Miss Petersen's home is in Buellton, near Santa Barbara.

Miss Dorothy Thompson has joined the faculty as instructor of journalism and English, taking Dean Chamberlin's place. She taught in Morgan Hill and Hollister, and her home is in Upland.

L. M. McQuesten, who takes Arnold G. Applegarth's place as teacher of life science, makes his home in Santa Cruz. He taught at Davis and Willets before coming to Campbell.

FRIDAY IS DATE FOR FIRST DANCE; BRING THE FROSH!

Bring a freshman! That's the theme of the dance to be held in the gym this Friday, Oct. 16.

This is the first social affair of the year in which the entire student body can participate, and a big turnout is expected. The social affairs commission thought it best to wait three weeks before giving a dance because of the fact that many students have been out of school working. Now, it can be a real get-together, get-acquainted party.

The dance is scheduled from 2:30 to 5:00 o'clock. The date is Friday. The music will be furnished by records and public address system. Don't fail to be there!

Scrap Pile Grows, But Gradually

"Get the lead out," is the theme of the week as Campbell High students continue to gather scrap for the nationwide scrap drive which is now in full swing.

The school drive began last week when a special assembly was held and all students heard Student Body President Dan Clark urge that one's weight in scrap material be brought to school. Principal Willard H. Van Dyke pointed out the fact that bringing scrap should not be hard when so many of our boys are giving their lives to bring victory.

Scrap to be brought in can be anything of aluminum, zinc, copper, lead, iron, brass, tin, and rags.

"At the bus stop is already a large deposit of scrap; but let's all do our best to make this a real success," urged Jane Gerrans, committee chairman. Others on the committee are Ernestine Fahler, Lois Magnuson, Gene Smith, and Alfred Hansen.

Proceeds from the drive will go into the War Chest fund.

Because of the shortage of farm and cannery help ,many of the boys have been urged to remain at work temporarily instead of attending school.

In spite of this situation and the fact that the school lost 46 Japanese students, there are 684 boys and girls enrolled at Campbell Hi, according to Principal Willard Van Dyke. Last year on the opening day of school 651 students registered. Seventy or eighty freshmen will probably enroll here in February, the principal indicated.

"Later in the year if the labor shortage continues, more of the students might have to stay out of school and work, but we hope not," said Mr. Van Dyke. "However, we must remember that there is a war going on."

VETERANS URGE ACTIVE WAR LEADERSHIP

Former Servicemen Supporting World War Buddy In His Race For Governorship

Earl Warren Served With the 91st Division; His Defense Record Is Praised

Veterans of World War I—thousands of them—under the statewide leadership of Frank N. Belgrando, Jr., former national commander of the American Legion, today are campaigning for their 91st Division buddy, Attorney General Earl Warren, in his fight to win the Governorship of California.

In their campaign for new leadership in state administration, they point to Warren's activities in connection with Civilian Defense, and they openly charge Governor Culbert L. Olson with a record of appalling neglect of war preparedness and bungling of the State's defense program in "his game of playing 'politics as usual' for personal gain."

Veterans are still incensed at Olson's unwarranted attempt to belittle their efforts against subversives and unAmericanism. They do not forget his veto of bills requiring school children to pledge allegiance to the flag; his veto of a bill permitting high school boards to purchase cadet uniforms; or that in the State Senate he cast the only vote, on May 25, 1937, against a California National Guard appropriation. His record of defense neglect is long.

Warren, on the other hand, as early as January, 1941—long before Pearl Harbor—analyzed the war situation, mustered peace officers of the State, and sponsored practical defense measures. He is a forceful and courageous leader, veterans declare.

Families of men now in the service are numbered among Warren's staunchest supporters, because he also assures intelligent after-the-war leadership.

By BETTY BARCLAY

Oranges are plentiful. Oranges are healthful. Oranges supply Vitamin C. Oranges may be turned into scores of beverages, salads and desserts that call for no sugar.

So why not buy oranges in quantity, store them in the refrigerator and draw upon them two or three times a day for the morning orange juice and such delicacies as the following?

Orange Melon Delight

1 medium sized honey dew melon
5 oranges
2 lemons

Chill melon and scoop out 24 balls. Extract juice from rest of melon, oranges and lemons. Combine melon juice, orange and lemon juice, and chill well. Fill glasses adding melon balls as a garnish. Serve cold.

Best Yet Salad

3 oranges, cut in pieces
2 cups orange juice

Place ingredients in refrigerator tray and chill to slushy ice. Cut in round pieces with a biscuit cutter and serve on chilled lettuce leaves with French Dressing.

Dessert Salad

4 oranges, cut in small cubes
1 cup coconut

Mix two ingredients and chill. May be served on salad plates plain, with whipped cream dressing or mayonnaise.

October 10 China's 4th of July

October 10 in China corresponds to July 4 in the United States, having been the date of the founding of the Chinese republic in 1911.

Reverse Charge?

The cost of stopping and starting a 560-ton passenger train traveling at a speed of 50 miles per hour varies from about 84 cents to $2.80.

PROGRESS?

School days, school days,
Good old Golden Rule days,
Readin' an' writin' an' 'rithmatic,
Taught to the tune of a hickory stick.

Yep, readin', writin' an' 'rithmatic
Vanished along with the hickory stick,
At least that's the way it looks to me,
But maybe it jus' seems to be.

No use to learn the how of readin',
If you will listen to the radio
You'll know all you need to know.
So bother with readin', oh no!

Take writin' fer instance, always a pest,
Why not let it vanish along with the rest.
The children scribble, they do not write,
Because at four they learn to type.

They say with calculaters and such
We dont' need 'rithmatic very much.
A new order has come from the old
It's progress, I've been told.

And so—I sometimes wonder why
The children go at all to school,
Unless it is that they still teach,
That something known as the Golden Rule.

LATEST NEWS — CARTOON

Here's another reason why we will keep 'em rolling!

On July 31, 5,137 Southern Pacific men were serving in our country's armed forces; on August 31, 5,836 men; and on September 15, 6,214. That's a lot of men from one organization!

To these men, the ideal of service is nothing new. Railroading has always inspired devotion to duty, and a conductor wears the stars on his sleeve just as proudly as a sailor wears his "hash marks."

We miss these men badly, for we worked side by side with them. We also miss their long training and experience in railroad work—training and experience that just can't be replaced overnight. But we're going to do our best to back these men up, wherever they may be.

We who are left have the job of getting troops, equipment and war materials over the line to the places where they're needed, *when* they're needed. And though the traffic peak in the next few months will be the greatest we have ever faced, we promise our men in the service that we will not let them down.

So if you see an extra glint of determination in an engineer's eye, or a passenger representative on the road night and day accompanying troop trains, or a section hand swinging his pick as if the ballast were full of Japs—you'll know why they have a personal interest in this war, and a personal determination to do their part to keep 'em rolling.

The War Bonds you buy now will help pay for one of those swell new post-war automobiles.

S·P

Christian Science Churches

"Doctrine of Atonement" will be the subject of the Lesson-Sermon Sunday, Oct. 18, in all Churches of Christ, Scientist. The Golden Text will be: "John seeth Jesus coming unto him, and saith, Behold the Lamb of God, which taketh away the sin of the world," (John 1:29).

Other Bible citations will include: "Let not sin therefore reign in your mortal body, that ye should obey it in the lusts thereof. Neither yield ye your members as instruments of unrighteousness unto sin: but yield yourselves unto God, as those that are alive from the dead, and your members as instruments of righteousness unto God," Romans 6: 12, 13).

The Lesson-Sermon will also include a passage from the Christian Science textbook.

'Crane-Berry'
Cranberries are borne on slender curved stalks resembling somewhat the neck of a crane. From this comes the name crane-berry, later modified to cranberry.

Women Chess Players
Eighteen girls entered the Russian championship chess tournament in Leningrad.

THE BOOK MARK

by marty

"The Man Who Went Away" by Harold Bell Wright.

After ten years of silence, one of our most beloved authors, has written another book. In those ten years Mr. Wright has grown more dear, as you will comprehend when you read his latest book. With an entirely new and different setting—new to the author's choice, but close and familiar to us—this story is one of California's giant redwoods. And to try and convince you, even the slightest, as to the perfection of the author's descriptive passages, would be sheer folly for me. More than once in your life time, I am sure, you have been "lost" in the woods, and perhaps you were lost, in a beautiful sort of way—in the grandeur and inspiration of nature's beauty. I promise you one thing, when you read "The Man Who Went Away," you will get completely lost in Hempstead Forest and you will love it. The redwoods will surround you—they will shelter you, and in their silent, protective stateliness, they will build for you a temple. A temple wherein you will enjoy quietness, and again in the story they will create for you occasions for mystery, foul play, and tragedy. But do not think for one moment that romance has been neglected. Not the slightest. There is one of the dearest and sweetest youthful romances in this tale that Harold Bell Wright has ever created.

The time of the story is the present, and the place is Northern California. A small coastal steamer nosed its way into Fisherman's Bay, cloaked by heavy Pacific fogs, late one afternoon, and from this steamer an uncommunicative man of middle age, the only passenger, stepped ashore and made his way up the steep incline to Hempstead Forest.

Almost immediately a drama of mystery and intrigue begins to unfold.

Enough has been told. Here is a book that everybody will find enjoyable.

Applying for a marriage license—Harvey Clark, 25, of San Jose and Frances Dickerson, 19, of Campbell.

Noel Voge who is employed in a bay city ship yard, was visiting his mother, Mrs. Lilian Voge the first of the week.

What You Buy With
WAR BONDS

A scout car is a low-slung motor car armored with heavy steel plate, used to transport troops from one point to another. It is of low silhouette and gives protection against machine gun and other ground fire. A scout car costs $5,000.

You and your neighbors joining together can buy one of these vehicles for the Ordnance Department of our army with your purchase of War Bonds. We need hundreds of them and need them quickly. Put at least ten percent of your wages or income into War Bonds every pay day and help your fellow Americans top the War Bond Quota in your county.
U. S. Treasury Department

Byrl Salsman Candidate for State Senator

Assemblyman Byrl R. Salsman, Santa Clara county's candidate for state senator at the Nov. 3 election, reported today that he is deeply grateful for the support of his candidacy by an ever increasing number of men and women in the county. Salsman reported that active groups are working for him under the direction of Glenn Baker who directed the re-election campaign for Congressman Jack Anderson, who achieved such an outstanding victory in Santa Clara county.

Baker paid high tribute to Salsman's career in public life and declared that Salsman's entire life was typical of American opportunity, enterprise and perseverance.

Said Baker, "The citizens of Palo Alto thought so highly of his work and worth that after he was admitted to the bar, they gave him their highest office, that of Mayor. Later they elected him to the assembly, where he made another impressive record. It seems to me," Baker stated, "that in times like these we want men in our public offices who really understand the American way of life, and have fought their way upward like Salsman, through virtually every field of endeavor. From his personal experiences Salsman knows what it means to be an American, and to save the American way for generations yet to come."

Baker declared Salsman is committed to the same principles of leadership instead of politics in state government as is Earl Warren, candidate for governor. He declared California must have men of vision and courage if we are to keep up our end in the war effort and civilian defense program. Politics in state government, he charged, has crippled California's work in the emergency.

Mrs. E. Clyde Glass (Dorothea Smith) is visiting her sister, Mrs. Lilian Voge and other relatives here this week. She will leave Sunday evening for Oakland where she will entrain Monday morning for her home in San Fernando.

A marriage license was granted to Robert Keith Drennor, 20, of San Jose and Thelma Jane Taylor, 17, of Campbell.

Lily Pons Recital Monday, Oct. 26

The recital of Lily Pons, star of opera, concert, radio and screen, as the opening event of the San Jose concert series on Monday evening, Oct. 26, brings opera to San Jose. The radiant Lily Pons carries with her the glitter and magnificence of the opera spectacle, always making a stage picture of breath-taking beauty, as well as thrilling all with her birdlike soprano.

Three flowers, a South American race horse, a restaurant, a steel drawbridge, a Boston and Maine locomotive, a whole train in New Jersey, and a Maryland township have been named for this favorite of all sopranos.

Edward Fox, flutist of the San Francisco symphony, will play flute obligato for two of Miss Pons' solo numbers. The concert will begin at exactly 8:15 and the dress slogan for this year is "come as you are."

Haul Ashes
Collectors of ashes in exclusive Edgware section of London wish to be known as dirt gentlemen

Cane Harvester Ousts 50 Men
A Louisiana planter has invented a harvester for sugar cane which does the work of 50 field hands.

What You Buy With
WAR BONDS

Hitler found out that his high powered mechanized and motorized army bogged down in the snow and mud of the Russian Winter. Although our Army is largely mechanized the cavalry horse is still a highly essential factor in this mounted division and in the Field Artillery. The Army also maintains remount farms where many cavalry horses are bred and raised.

These select horses cost from $100 to $165 and our crack cavalrymen are expert riders and carry on the traditions which have followed the cavalry from the earliest days of the Army. Purchase of War Savings Bonds will insure good mounts for the Cavalry. You and your neighbors buying War Bonds and Stamps regularly every pay day can help buy these horses for the U. S. Cavalry. Invest at least 10 percent of your income in War Bonds.

Jean Holloway Writes Many Radio Scripts

Miss Jean Holloway was visiting her aunt and uncle, Mr. and Mrs. W. W. Lamb over the week-end, flying up from Hollywood Friday night. She is now flying between New York and Hollywood at least once in two weeks as she is writing script for the Kate Smith show and Lionel Barrymore's "Mayor of the Town" program for which she receives $600 per week.

The Oct. 12 issue of Time magazine carries a story about Miss Holloway of which the following is an excerpt:

"Last week it was Radio Row's safe guess that smiling, apple-cheeked Jean Holloway had proved her point with one of the fleetest careers in radio. Until June, the mainstay of the Kate Smith show (for which she wrote Kate's speeches, all song leadins and dramatics), Jean's prolific output includes a free-verse drama about Davy Crockett for Walter Huston, a biographical extravanganza about Composer Claude Debussy with a 70-piece orchestra for background, an all-Negro romp called Jubilee, special shows for Madeleine Carroll, Edward Arnold, Gertrude Lawrence, many other top-flight stars, not counting 200-odd stars who have spoken her lines on the Kate Smith program."

Paul J. Bean and George S. Richardson of Campbell have joined the U. S. Marine.

Gordon Garland For Earl Warren

Gordon Garland, Democrat, the 1939-41 speaker of the California assembly in an address at a non-partisan luncheon in the Hotel Sainte Claire yesterday, issued an urgent appeal for the election of Earl Warren for governor in the coming November election.

He assailed the administration of Governor Olson, whom he says has played politics from the start.

Other "short comings" he listed were Olson's attempt to put over a budget exceeding by $100,000,000 any previous budget, which was only prevented by the economy bloc. He cited many other failures of Olson and his adherents.

However, the election of Warren alone is not enough. Members should be elected to the state senate and assembly who have expressed their policies as in accord with his and who will support his program.

The FARMERS CORNER

by RALPH H. TAYLOR

Executive Secretary Agricultural Council of California

Patriotic California citizens who believe that winning the war comes first, above every selfish consideration, and who are determined to back up the men in our armed forces with uninterrupted production of food and war materials at home, cannot afford to be confused or deceived by the violent, eleventh-hour campaign of misrepresentation which is being waged against Proposition No. 1 on the November ballot.

This proposition, outlawing secondary boycotts and "hot cargo" practices during the war emergency, is designed to prevent labor abuses which if premitted to continue, will seriously impair California's war production.

It is an essential war measure and should receive a "Yes" vote on Nov. 3 from every California voter who realizes the urgent, desperate need of eliminating "wildcat" strikes and boycotts for the duration.

The contention of certain labor leaders that the outlawing of secondary boycotts and "hot cargo" practices is made unnecessary by the fact that labor has voluntarily agreed to forego such practices during the war period falls of its own weight. There have been scores of instances of the use of both of these extra-legal weapons in California since Pearl Harbor, despite the appeal of President Roosevelt to the unions to forego strikes during the emergency. Labor leaders, when faced with the facts, have fallen back on the lame excuse that they can't control all of their unions—and have blamed such disruptions of the war effort on "local leaders." But regardless of who may be at fault, California can't afford to premit a continuation of work stoppages of this nature which imperil the lives of the nation's fighting men, who are in critical need of food and equipment.

Another phase of the campaign of misrepresentation which is being conducted against Proposition No. 1 is the specious claim that the proposal would infringe on free speech. There is no infringement of free speech, nor of any legitimate activity of labor unionism, in the bill. At a matter of fact, California is one of only three states which have sanctioned the secondary boycott. In 29 states the practice is outlawed by statute or court decision — and organized labor flourishes in these states, thereby clearly establishing that such practices are not essential to successful unions.

With the critical shortage of labor which now confronts the farming industry, and the imperative need of keeping food shipments rolling to our own troops and our allies, this state simply can't afford to countenance a continuation of practices which might result in the loss of millions of tons of produce due to inter-labor disputes or wildcat strikes.

Proposition No. 1 does not in any way prohibit employes from joining a union, organizing for the purpose of collective bargaining, or carrying on such bargaining; nor does not interfere in any way with the right of employees to strike against their employer with whom they have a dispute; nor does it compel any man to work against his will. It does not interfere with any of the practices or precepts of legitimate trade unionism.

The secondary boycott is a concerted effort of two or more people to prevent an innocent business man or farmer, or his employees, with whom no labor dispute exists from doing business with someone else who is involved in a labor dispute with other employees.

"Hot Cargo" is the refusal collectively of employees or employers to transport or handle the product of anyone, person or company, because the latter has a labor dispute.

If you want food and produce— and guns and equipment—to reach the boys who are fighting our battle for freedom, without interruption or delay: if you want to put winning the war first, and selfish considerations second, then vote "Yes" on Proposition No. 1.

Businessmen—Let's talk about death! Let's not dodge the issue—let's face facts. A lot of good American fighting men may soon have to die for want of scrap!

IF YOU FAIL SOME BOY WILL DIE!

WE'RE talking facts, remember! Such as the fact that steel for every tank, ship, and gun must be made of 50% scrap. And the terrible fact that America's mills are starving for this scrap—without enough on hand for even 30 days more production!

Which puts it up to you!

Monday starts the big scrap metal drive. And you, as a businessman, have a double job to do. Clean out your home—and scour your place of business, factory, office or store . . . for every single bit of scrap.

And when you see the stockpile grow—for the mills to take when it's needed — be glad that you've done your part...that your work may have saved some boy from a needless death!

BUY WAR BONDS

Big Shot

The 16-inch gun is the largest and has a range of approximately 30 miles using a projectile weighing about 2,340 pounds.

Fog Said to Protect Skin

San Francisco has much fog but little skin cancer. Fog seems to block the ultra-violet rays of the sun, which are said to cause the cancer.

Fire—Water

Fire has been made to burn under water. It took six years of research, but the apparatus has been perfected.

Acid Indigestion

What many Doctors do for it

When excess stomach acid causes gas, sour stomach or heartburn, doctors prescribe the fastest-acting medicines known for symptomatic relief—medicines like those in Bell-ans Tablets. Try Bell-ans yourself, at first sign of distress. They neutralize acid, relieve gas, and bring comfort very quickly—yet are not a laxative! Only 25c, at drug stores. If your very first trial doesn't prove Bell-ans better, return bottle to us and get double your money back.

Most WOMEN of "MIDDLE AGE"

38-52 yrs. old Suffer Distress At This Time—

If this period in a woman's life makes you cranky, nervous, blue at times, suffer weakness, dizziness, hot flashes, distress of "irregularities"—

Try Lydia Pinkham's Vegetable Compound—made *especially for women*—famous for helping relieve distress due to this functional disturbance.

Taken regularly — Lydia Pinkham's Compound helps build up resistance against such annoying symptoms which may betray your age faster than anything. Also very effective for younger women to relieve monthly cramps.

Thousands of women report remarkable benefits! Get a bottle of Lydia Pinkham's Compound today from your druggist. Follow label directions. WORTH TRYING!

HERE'S HAPPY RELIEF

If you suffer from backaches resulting from fatigue or exposure . . . if sore muscles or a stiff neck have got you laid up . . . SORETONE is what you need. It is a medicinal, analgesic solution developed in the famous laboratories of McKesson & Robbins in Bridgeport, Conn.

SORETONE acts fast—gives soothing relief right where relief is needed—speeds the superficial blood flow to the affected area. Also helps to prevent infection. Not an animal preparation—made for human beings. Wonderful, also, for sore, tired feet, and for relieving itch of Athlete's Foot. MONEY BACK IF NOT SATISFIED.

SORETONE

FOR ATHLETE'S FOOT • MUSCULAR PAINS

A DAB A DAY KEEPS P.O.* AWAY

*New cream positively stops *underarm Perspiration Odor*

1. Not stiff, not messy—Yodora spreads just like vanishing cream! Dab it on—odor gone!
2. Actually soothing—Yodora can be used right after shaving.
3. Won't rot delicate fabrics.
4. Keeps soft! Yodora does not dry in jar. No waste; goes far.

Yet hot climate tests—made by nurses—prove this *daintier* deodorant keeps underarms immaculately sweet—under the most severe conditions. Try Yodora! In tubes or jars—10¢, 30¢, 60¢. McKesson & Robbins, Inc., Bridgeport, Connecticut.

Write a Neighborhood News Letter to a Neighbor Boy in the Service

With the need to make every tire mile count and every minute count our ideas of a good time are changing. We can see by the papers how Block Clubs are creating neighborliness and evening hours are devoted to worthwhile projects that are fun. That means eyes are being used in more concentrated work. There is a chance of eyestrain unless lighting in the home is kept up to the standard needed for easy seeing. Observe all the dim-out rules about light outside your home but enjoy the dim-out with Adequate Light in your home.

AVOID WASTING LIGHT *and yet have* GOOD LIGHT *too!*

1 50% more light for same amount of money . . . A 100 watt bulb gives half again as much light as four 25 watt bulbs.

2 Place lamps where they are most useful . . . Often moving lamps a few inches will help make seeing easier—protect eyes from strain.

3 Keep lamp bulbs and bowls clean . . . Wipe lamp bulbs and bowls frequently with damp cloth. Replace blackened bulbs.

4 Lamp shades with white lining . . . will increase the diffusion of light as much as 50% in comparison to dark shades.
